Dhaka, Bangladesh
Jan. 2020 -Dec. 2020

- Implemented some features of Android apps.
- Worked on the web version of an app

▼ Projects

Country Apps

FRONT-END

JavaScript, Less Bootstrap

I developed the Frontend of a survey web app using the React framework. The front end will use the REST API provided to perform different actions.

Quiz-React-App

FRONT-END

JavaScript

We analyzed the interactions among students, teachers, and the authority and found that it is important to have a common online platform to facilitate communication. So, we designed a soft-bd considering the possibilities, important features, and other stuff.

PERSONAL WEBSITE

FRONT-END

JavaScript, Less, Bootstrap

I have developed this static website using HTML, CSS, and JavaScript libraries. I used the CSS preprocessor tool 'less' and the automation tool 'gulp'.
